Applications Due Tomorrow for Summer Medical Student Fellowships!

The Urology Care Foundation offers a portfolio of mentored research training awards intended to recruit outstanding young investigators into urologic research and foster their career success. This fellowship program engages high-caliber medical students in summer research fellowships alongside world-class urologic scientists. Awardees receive $4,000 stipends to support them during a ten-week mentored research experience. The application deadline is January 9, 2020 by 5:00 p.m. Eastern time.

Apply Now

BCAN Young Investigator Award

This award, sponsored by the Bladder Cancer Advocacy Network (BCAN), is intended to support the development of outstanding research scientists and clinical cancer research investigators who have demonstrated a commitment to improving the understanding, treatment, and experience of bladder cancer. Investigators may be working in basic, translational, clinical, epidemiologic, bioengineering or any other field, but must be working in a research environment capable of supporting transformational bladder cancer and/or upper tract urothelial cancer research. The application deadline is February 24, 2020.

BCAN Patient-Centered Clinical Research Young Investigator Award

This award, sponsored by the Bladder Cancer Advocacy Network (BCAN), is intended to support the development of outstanding research scientists and clinical cancer research investigators who have demonstrated a commitment to improving the understanding, treatment, and experience of bladder cancer. Investigators must be working in a research environment capable of supporting transformational patient-oriented clinical bladder cancer research. The application deadline is February 24, 2020.

Conferences & Workshops
Register Today! Advancing Bladder Preservation: Biomarkers, Decision-Making and Therapy

The AUA is partnering with the Johns Hopkins University Greenberg Bladder Cancer Institute for their third annual bladder cancer translational research collaboration. This year’s meeting will be held on March 6-7, 2020 at the Johns Hopkins East Baltimore Medical Campus in Baltimore, Maryland. The meeting will be a two-day workshop focused on alternatives to surgical removal of the bladder (radical cystectomy) for patients with muscle-invasive disease. The registration deadline is February 24, 2020.

2020 Winter SUFU Meeting

The Society of Urodynamics, Female Pelvic Medicine and Urogenital Reconstruction (SUFU) Winter Meeting will be held on February 25-29, 2020 in Scottsdale, Arizona. Registration is now open and the full program is available online.

Funding Opportunities

Stimulating Urology Interdisciplinary Team Opportunity Research (SUITOR) (R01 Clinical Trial Optional)

The Stimulating Urology Interdisciplinary Team Opportunity Research (SUITOR) program is intended to promote innovative, high quality, interdisciplinary research relevant to the mission of the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK). The NIDDK invites investigator-initiated research project grant applications (R01s) in specific areas of basic, translational and clinical research in benign urologic conditions and diseases where needs and opportunities for progress are particularly timely. The most recent research topic supported by the SUITOR program focused on Improving Outcomes for Urinary Incontinence. The application deadline is February 5, 2020.

Developmental Mechanisms of Human Structural Birth Defects (P01 Clinical Trial Not Allowed)

The purpose of this National Institute of Child Health and Human Development (NICHD) funding opportunity is to support innovative, multidisciplinary, interactive, and synergistic program projects that integrate basic, translational, and clinical approaches to understanding the developmental biology and genetic basis of significant congenital human malformations. Each program will consist of only three component research projects, as well as associated cores. At least one project must use basic research in an animal model system and at least one project must be clinical or translational in nature. The application deadline is March 31, 2020.
2020 SMSNA Pfizer Research Fellowship in Men’s Health

The purpose of the Sexual Medicine Society of North America (SMSNA) fellowship program is to support clinical and/or basic research in men's sexual health and foster development of expertise in the field of men's health. The funding is intended to supplement post-doctoral research activities and conference participation to present those activities. The application deadline is April 6, 2020.
